POSITION SUMMARY

Siegfried has immediate openings for Civil Engineers operating out of our Sacramento and Stockton offices. In general, the duties of this position consist of the following tasks:

Senior Engineer:

- Oversee the production of construction documents for the design of both public infrastructure and private development projects.
- Proactively manage clients to insure their needs and expectations are being met.
- Participate in business development activities including pursuing, scoping and bidding prospective projects.
- Participate in the design and production of construction documents including plans, estimates, specifications and calculations.

Design Engineer:

- Research and design of infrastructure improvements for both public and private development projects. This includes the design of grading, paving, drainage, storm water treatment, sanitary sewer and water supply systems.
- Assist in the production of construction documents and manage Civil Engineering Technicians.

QUALIFICATIONS

Knowledge, Skills, and Abilities

- » Experience in the design and production of infrastructure construction documents including roadways, utilities, pumping facilities, onsite improvements, stormwater management facilities, and related infrastructure using AutoCAD and Civil 3D production software;
- » An ability to professionally communicate with clients, technical staff and management.

Education

- » Bachelor's Degree in Civil Engineering

Licensure

- » California Licensed Civil Engineer; PE preferred, EIT required

Experience

- » A minimum of 3 years of Civil Engineering experience

SALARY

Siegfried offers competitive salaries commensurate with experience and qualifications.

BENEFITS

Siegfried offers an excellent benefit package, with minimal employee contributions:

- Medical, Dental, and Vision Insurance
- Life and Disability Insurance
- 401 K Retirement plan
- 18 Paid Leave days per year
- 10 Paid holidays per year
- Health club membership
